EXPERIENCE

Full Stack Developer.   **February 2025 - Present**
Mobius by Gaian Solutions.   *Hyderabad, Telangana*

- Developed end-to-end project flow where users submit detailed forms, displayed as interactive project cards on the dashboard for better visibility and tracking.
- Integrated workflow APIs to automate and track 10+ backend processes, reducing manual effort by 40%.
- Designed core and favourite prompt flows enabling users to interact with agents, execute commands, attach artifacts, and reuse prompts across 20+ workflows, improving overall efficiency.

Software Developer.   **November 2024 - January 2025**
HealthOFin.   *Remote*

- Collaborated on a platform connecting farmers with IT-sector investors, implementing onboarding, investment tracking, and admin control for seamless role-based interaction.
- Contributed to 10+ secure APIs enabling user verification, farm listings, document uploads, and transparent investment workflows across 3 user roles.
- Developed interactive dashboards and reporting features, allowing farmers and investors to track investments, portfolio performance, and status.

PROJECTS

Yuno | Next.js 15, TailwindCSS, Prisma, Clerk, Gemini API   **GITHUB** ⬈   **LIVE** ⬈

- Designed an AI-powered platform for tailored quiz-based interview preparation across 50+ industries.
- Implemented dynamic role-specific question generation with real-time insights from market trends.
- Achieved 80% quiz completion rate by optimizing question relevance, pacing, and overall user experience.

react-prompt-palette (NPM Package) | React, TypeScript, TailwindCSS   **GITHUB** ⬈   **LIVE** ⬈

- Built a sidebar-based prompt management reusable react component that attaches to text inputs.
- Reduced prompt repetition by 60% through creation, editing, and reuse with localStorage persistence.
- Reached 500+ downloads within two weeks, gaining traction among AI and developer communities.

EDUCATION

Guru Ghasidas Vishwavidyalaya, A Central University.   **2020 - 2024.**
Bachelor of Technology in Computer Science and Engineering. CGPA: 8.87.   *Bilaspur, CG.*

TECHNICAL SKILLS

Languages/Databases: JavaScript, TypeScript, Python, MongoDB
Developer Tools: Git, GitHub, VS Code, Figma, Intellij, Sublime Text, Atom.
Technologies/Frameworks: TailwindCSS, Node.Js, Expressjs, React.Js, NextJs, Docker.
Soft Skills Interpersonal Communication, Creativity, Adaptability, Problem Solving.

ACHIEVEMENTS

- Finished **2nd** in the Internal **SMART INDIA HACKATHON** (Team Name: Wee Coders).
- Secured **3rd rank** in coding contest organized by Eqillibrio '24 ITGGV in collaboration with **CodeChef**.
- **Global Rank 157** in **CodeChef** February Long (among 19k participants).
- **Global Rank 1312** in **CodeChef** Starters 27 (among 21k participants).

POSITIONS OF RESPONSIBILITY

- **Executive Member – Web Development Team**, Developer Student Clubs (GGV) — Took sessions on Git and version control for 50+ students, helping them manage projects.

- **Executive Member – Competitive Programming Team**, CodeChef ITGGV Chapter — Organized 10+ events on competitive programming topics.
